

# Would you recommend implementing something like this?

**IT MANAGEMENT CONSULTING** supplies top IT management consulting services to the internal IT units of Deutsche Post World Net, the world's No. 1 logistics provider.

Deutsche Post World Net has opted for a highly modern IT structure that keeps supply and demand strictly separate. This separation guarantees effective support for the essential corporate goals of the business-facing IT units, while at the same time ensuring that the internal IT provider can deliver efficient operational services. And this naturally applies throughout the world.

This is where **IT MANAGEMENT CONSULTING** comes in. We offer world-class advice to assist with all relevant issues, such as strategic planning, restructuring, designing IT management processes and managing the added value provided by IT.

In order to strengthen our team, we are looking for graduates and experienced professionals to fill both junior- and senior-level positions as:

## IT Management Consultants (m/f)

You will quickly take on responsibility in projects offering full exposure to top-level IT management. Your activities will include analysis, design and implementation.

You are detail oriented but don't get side-tracked. You have the greater picture in mind without being superficial. You are a good communicator and an enthusiastic presenter. Your strengths include an ability to think analytically and conceptually, and you are passionate about IT management.

Within an international environment you feel at home which isn't limited to language.

Applications, as well as any questions you may have, should be directed to our recruitment department:
